

SMC Crossover Series Tri-Lock Hardware | Carabiners and Connectors

These carabiners feature a new ergonomic single hand frame geometry allowing easy single hand operations. The CrossOvers have been specifically designed to meet all your work environment safety needs. Easy to use Dual or Triple Auto-Locking sleeves allow for single hand operations while working in mission critical environments. A traditional Screw-Lock version is also available.

Key Features

- Choice of three gate options
 - Lightweight design
 - New frame and gate design
-
