

CASCADE RESCUE Professional Series Titanium Patient Care | Rigid Litters and Accessories

When the best possible combinations of high strength and light weight are your priority, choose a Cascade Titanium Litter. The most advanced features of any rescue litter available today. Saving 13 lbs over the stainless steel model, this litter is designed for the demanding professional. An exceptionally strong (easily passes Mil-Spec and exceeds 39 kN of force in destructive testing) yet flexible product weighing in at only about 20 lbs. The composite shell is extremely abrasion resistant and works well on ice, snow, rocks, etc. Top railing, FastLock Couplers and Interleave plate are all made of titanium.
