

SMC Kootenay Hx Knot Passing Pulley

The SMC Kootenay Hx is the most advanced Knot Passing Pulley on the market. This is an entirely new and more compact design and lives up to its “HX” (High Strength) name as the lightest, strongest, most efficient, and durable pulley of its kind available. Sealed ball bearings provide optimal efficiency and help to reduce the performance-robbing resistance that is inherent in most multiple component systems. Adding to its versatility, the SMC Kootenay Hx Knot Passing Pulley may also serve as an edge roller for rope protection.

Key Features

Additional Information

Shipping weight | 2.2 lbs

Color | Gold

Height | 3.40” (8.6 cm)

Width | 4.34” (11.0 cm)

Length | 8.67” (21.6 cm)

MBS | 38 kN (8542 lbf)

Weight | 1.65 lbs (750 g)

Sheave | 3.46”

Max Rope Size | 13 mm Axle Ball Bearing

Sheave Material | Aluminum

Tread | 2.22”

Compliant | BERRY COMPLIANT, NFPA 1983 (2017), G
