

10mm Delta Screw Link, Galvanized Steel

Screw links stand up to multi-directional forces better than carabiners and allow ample room for multiple pieces of gear to be attached. Ideal harness attachment in ascending systems or for joining anchor straps. Delta shape: developed after the ever-increasing development of webbing-fitted systems; perfect for webbing uphold onto its lower flat part. Made in France by Maillon Rapide.

Note: Links are stamped with a Working Load Limit (WLL) that is about 1/5 of its rated breaking strength.
