

The Climbing Technology ASCENDER SIMPLE a multi-use, light-alloy right-hand rope ascender for climbing ropes or as a clamp for hauling/rescue. Equipped with a set of teeth that protects the wear of the rope, but it is equally effective in blocking and ascending the rope. It also has three slots to prevent the accumulation of mud and reduce the effort needed to slide the device up the rope under any condition (muddy rope, frozen etc.)

[DECLARATION OF CONFORMITY](#) [GENERAL INSTRUCTIONS](#)

Key Features

- Cam opening lever usable with one hand
 - Patented, one-handed cam release mechanism
 - Durable steel cam with effective, non-destructive teeth
 - Two attachment holes for various possible uses, antiinversion cam system
 - New steel cam, manufactured with technology that implements the resistance to wear and tear. Equipped with a set of teeth that protects the wear of the rope, but it is equally effective in blocking and ascending the rope. It also has three slots to prevent the accumulation of mud and reduce the effort needed to slide the device up the rope under any condition (muddy rope, frozen etc.)
