

10mm Half Moon Screw Link, Galvanized Steel

Screw links stand up to multi-directional forces better than carabiners and allow ample room for multiple pieces of gear to be attached. Ideal harness attachment in ascending systems or for joining anchor straps. The Half moon (semi-circular) shape is suitable for the junction of 2 connecting points on a harness. Made in France by Maillon Rapide.

Note: Links are stamped with a Working Load Limit (WLL) that is about 1/5 of its rated breaking strength.
