

Skylotec — Gordon Rescue Fall Arrest Block Pro | Pro Hardware

GORDON is the all-rounder among fall arrest blocks. Its low weight and robustness are impressive features. This offers great advantages especially when working at height: the devices can be combined with various certified textile ropes which can be easily interchanged by the user. GORDON offers an endless variety of potential uses: It can be used solely as a fall arrester, and in the GORDON RESCUE version as a fall arrester and lead climbing belay device. GORDON RESCUE can also be used in combination with other hardware as a self-locking pulley system. GORDON RESCUE is suitable for entry, lead climbing and for belaying during rescues. Its compact dimensions and milled aluminium housing make it slimline, lightweight and easy to handle. The device can be equipped with rope of any length and used in both directions. GORDON stops falls. Thanks to a built-in gauge and distinct lasermarkings wear inspection is very simple

Additional Information

Shipping weight | 3.95 lbs

Compliant | ANSI Z359.14:2014, EN 360:2002, EN 795-B:2012

E-class Number | 40-02-01-03

Max. Service Life | 20 Years

Rated Load | 140 KG

Material | Aluminum, Steel

Weight | 3,95 lbs
