

## Skylotec — ACX Lightweight Battery For Power Ascender Pro | Pro Hardware

Powerful battery to extend the [ACX POWER ASCENDER kit](#) (SYPOA-001) when more than two batteries are required for one device. The quick-charging battery has an electronic management system with LED display that provides information on its charge status at all times. With a user load of 100 kilogrammes, one battery charge is sufficient for up to 200 metres of rope. At higher weights, the battery performance is correspondingly somewhat lower.

### Additional Information

**Shipping weight** | 5.51 lbs
