

8 mm PMI® Single Bar Sewn Prusik Webbing and Cordage | Sewn Webbing, Straps and Loops

PMI® is proud to offer the latest innovation in accessory cords. Precision sewn loops form a sleek, low profile connection that is stronger than a knot. Clear tubing protects the stitches yet allows for easy inspection. Built for those looking for a no-Knot solution for prusik minding pulleys. These Pre-Sewn prusiks work great in hauling systems that require a prusik load capture, the sewn prusik is always stronger and more reliable than a tied knot prusik. Also available in [6 mm](#) and [7 mm](#).

Key Features

- More Flexibility for ease of use
- Easier to store in a pack
- Can be stored in a smaller compartment on person
