

7mm Single Bar Sewn Prusik PMI |

PMI® is proud to offer the latest innovation in accessory cords. Precision sewn loops form a sleek, low profile connection that is stronger than a knot. Clear tubing protects the stitches yet allows for easy inspection. Loops are built for those who are looking for a no-Knot solution for prusik minding pulleys. These Pre-Sewn prusiks work great in hauling systems that require a prusik load capture, the sewn prusik is always stronger and more reliable than a tied knot prusik.

Key Features

- More Flexibility for ease of use
- Easier to store in a pack
- Can be stored in a smaller compartment on person
- Less Bulk and a lighter weight
- Available in 6 mm, 7 mm, and 8 mm
- 5'8" length perfect for creating purcell prusiks
- Used in the PMI® Tandem Prusik Kit
- Cord also slides under the clear tubing to allow length adjustment
