

BEAL Air Top Chest Harness for Shaolin Harness

Adjustable chest harness with figure 8 shape for use with a [SHAOLIN](#) sit harness. This comfortable harness ensures the user remains in an upright position during a fall. The 8 shape gives the climber greater freedom of movement as well as better distribution of pressure around the torso. It has two adjustment buckles for the length of the shoulder straps and an additional adjustment buckle allowing all body types to perfectly position the sternal point. This textile sternal fall arrest point is reinforced and ideal for moving around without discomfort. Wide self-locking elastic loops for sliding in excess strap have been provided for use and the attachment of the elastic holding the ventral blocker is very simple.

Key Features

- Figure 8 shapes provides freedom of movement and distributes pressure around the chest evenly.
- 2 adjustment buckles to adjust the length of the shoulder straps.
- A single adjustment buckle allows the sternal attachment point to be correctly positioned in relation to the user, regardless of their physique.
- A reinforced webbing fall arrest attachment point is ideal in confined spaces allowing progression without hindrance.
- Can easily be fitted with an elastic positioning strap for the chest ascender.
- Large elastic retainers help tidy the chest ascender's webbing.
