

2" Nylon Tubular Webbing 50 Yard Spool PMI |

2 inch wide BlueWater Climb-Spec® webbing has exceptional abrasion resistance while maintaining a smooth handling. NOTE: Two sections of 2 inch webbing tied with a water knot has an average strength of 6,000 lbf. Tied in a loop using a water knot the average tensile is 9,000+ lbf.

Key Features

- Manufactured in the U.S.A. from Domestic and Globally sourced raw materials.
- CE and UIAA Certified.
- 100% Nylon.
- Tensile Strength: 7,126 lbf (31.6 kN)
- Width: 2"

Additional Information

Shipping weight | 8.2 lbs

Width | 2.0" (5.1 cm)

Grams Per Meter | 71

Tensile Strength | 7,126 lbf (31.6 kN)

Color | Red

Material | Nylon

Product Code

WB59014
