

Beal - Mercury Group Helmet

Beal |

The MERCURY GROUP is a robust helmet with an ABS outer shell, designed for intensive use in a group environment, such as on high ropes courses. The inner liner is suspended and easily adjustable with a strong and simple buckle. The helmet is designed to be durable and easy to wash. Neither the foam nor plastic parts affect the helmet's robustness. It is micro-adjustable thanks to a precise adjustment dial and benefits from a magnetic closure of the chinstrap buckle. **All items in the Outlet are considered final sale.**

Key Features

- Excellent ventilation
 - Micro-adjustable thanks to a precise rear adjustment dial
 - Magnetic chin strap buckle facilitates fitting and undoing even with gloves or a single hand
 - Side slots for maximum ear protectors
 - Outer ABS shell designed to optimize comfort and protection
 - Chin strap withstands more than 112.4 lbf to ensure the helmet remains secured during an impact
 - 4 Headlamp clips are integrated into the ABS shell
 - Internal comfort padding is removable and machine washable
