

BEAL Opera 8.5MM Beal |

The lightest single rope

With its weight of 48 grams per meter, the OPERA 8.5 is the lightest and thinnest single rope on the market. The first to weigh less than 50 grams. A true concentrate of all BÉAL's know-how, it combines several technological innovations to offer a resistant rope that is both ultra-light and ultra-fluid. With its low impact force, OPERA 8.5 is a rope designed for the most demanding climbers, while remaining versatile. In fact, it is also certified as a double and twin rope. The OPERA 8.5 rope is not only ultra-light and ultra-fluid. It incorporates UNICORE technology for greater strength by making the core and sheath of the rope integral.

Key Features

- Ultra light
 - THE ultimate rope
 - Triple certification simple, double and twin
 - Unicore
-
