

BEAL Gully 7.3MM Golden Dry Beal |

The must have for ice climbing

Weighing only 36 g per meter, the GULLY 7.3 is the lightest double rope on the market. In addition to being extremely light, the GULLY 7.3 rope is also certified as twin rope. It has a very low impact force. Its technical features and exciting flashy colors make it the must have rope for ice climbing and mountaineering. The GULLY 7.3 rope uses both UNICORE and GOLDEN DRY technology. The first one makes the core and the sheath of the rope integral. The second is a treatment against water and abrasion. The result: a light, fluid rope, but above all one that provides enhanced safety thanks to its extreme resistance to weather conditions and abrasion.

UNICORE and GOLDEN DRY technology

The GULLY 7,3 rope uses both UNICORE and GOLDEN DRY technology. The first one makes the core and the sheath of the rope integral. The second is a treatment against water and abrasion. The result: a light, fluid rope, but above all one that provides enhanced safety thanks to its extreme resistance to weather conditions and abrasion.

Key Features

- Ultra Light
 - Low Impact Force
 - Unicore
 - Flashy Colors
-

Additional Information

Shipping weight | N/A

Color | Green, Orange

Diameter | 7.3mm

Length | 70 m (230 ft), 60m (197ft)

Material | Polyamide

Impact Force | 5.2 kN

Sheath Content | Polyamide

Sheath Slippage | 0 mm

Product Code

BOBC073G.70GD.G | Green | 70 m (230 ft)

BOBC073G.60GD.G | Green | 60m (197ft)

BOBC073G.70GD.O | Orange | 70 m (230 ft)

BOBC073G.60GD.O | Orange | 60m (197ft)
