

## 9.7 mm BEAL Booster III Sport | Sport Rope

This thin rope combines a number of qualities that make it very satisfying to use. Compact, fluid and ultra-light, this rope fits everywhere. With a low impact force and designed to withstand a high number of falls, the BOOSTER III rope will soon become your best partner on your climbs. We recommend it for advanced climbers. The BOOSTER III rope is reinforced with our UNICORE® technology to provide excellent strength and sets a new benchmark in safety by allowing the climber to pass a cut or torn sheath area, whether descending or ascending, since the sheath cannot bunch to create an impasse.

---

### Key Features

- Fluid
  - THE benchmark rope
  - Low impact force
  - Thick sheath for more resistance
-

## Additional Information
