

The ORIENT EXPRESS is a unidirectional locking carabiner designed for use with belay devices. Thanks to the internal snap gate that clips onto a harness belay loop, the carabiner cannot turn over. This ensures the carabiner stays in the correct direction thus reducing the risk of the belay system being weakened through cross loading.

While these may be “sport” carabiners they can also be used in the Pro world.

Key Features

- Directional carabiner
- Ideal for use with Birdie

Additional Information

Shipping weight | 0.2 lbs

Color | Blue, Green, Orange

Brand | [Beal](#)

Material | Aluminum

Major Axis MBS | 25 kN (5620 lbf)

Gate Open MBS | 7 kN (1574 lbf)

Minor Axis MBS | 7 kN (1574 lbf)

Compliant | EN 12275:2013 B, EN 12275:2013 T, EN 12275:2013/H, UIAA 121

Product Code

BOBMCLOE.B | Blue
BOBMCLOE.G | Green
BOBMCLOE.O | Orange
