

BEAL Top Gun 10.5MM

Beal |

Climb with peace of mind

This high performance rope with its low impact force (7.4kN) and the record number of falls (11) it can withstand, already offered us excellent results and an optimal level of safety for peace of mind when climbing. It is now reinforced by our UNICORE innovative technology which provides undeniable additional safety. This process consists of binding the core and sheath of the rope to prevent the potential slippage of the sheath and thus providing increased durability.

Key Features

- Withstands a record number of falls for its diameter
- Low impact force
- Recognized for its smooth running

Additional Information

Shipping weight | 9 lbs

Diameter | 10.5mm

Material | Polyamide

Impact Force | 7.5 kN

Elongation | 37% - Dynamic, 9.5% - Static

Breaking Load | 2100 daN

Product Code

BOBC105T.60.G
