

BEAL Aquaram 9.6mm Beal |

AQUARAM 9.6mm is a low stretch type B rope that offers its user good suppleness for a pleasant comfort of use. It has been specifically designed for intensive use in canyoneering. Its sheath is made of over 80% Technora (aramid), a material that gives the rope a high resistance to traction, wear and heat. It is also worth knowing that this rope has limited water shrinkage and offers high durability.

Key Features

- Highly abrasion resistant
- Aramid sheath
- Stays supple
