

BEAL Air Smith 3-Matic

With its wide opening, the AIR SMITH carabiner is ideal for connections to metal anchors/structures. Its large capacity allows it to hold several elements. For more security, it has a screw locking system as well as a keylock system. Each carabiner also has an individual number that guarantees its traceability.

Key Features

- Triple action 3-Matic locking system
 - Large capacity
 - Screw lock system
 - Key lock system
-
