

BEAL Espresso Beal |

The one and only double lanyard with a Dyneema sling. The Espresso is a double lanyard designed to lighten your climbing equipment and help you to rappel down thanks to its light and small Dyneema sling. The Espresso can be used as a single lanyard to anchor yourself while sport climbing and as a double lanyard for multi-pitch climbing. It is also suitable for crevasse rescue while glacier walking and mountain skiing.

Key Features

- Lighter and more compact than
- Sewn Lanyard for greater safety
