

Cascade Professional Series Titania Model 200 Patient Care | Rigid Litters and Accessories

Technically advanced and nearly indestructible, the Cascade Professional Series Litter is built with a steel body and cross members for the most extreme rescue conditions. This reasonably priced litter features a patient contour support (standard taper boards fit too) which is molded and padded for patient comfort. [Available with PMI® FAST installed](#)

Key Features

- Stainless Steel Litter has 4 Articulating Lift Points
- Integral backboard
- One or two piece
- 3/4" frame and supporting cross members and 3/8" secondary railing
- UV resistant polyethylene mesh liner
- Two piece version uses the FastLock System
- Powder coated
- Tapered or rectangular shape
- Available with PMI® FAST installed
