

SMC Origin 8 Rigging Plate

Origin 8 large rigging plate, boasts the perfect quantity of connection points to ensure orderly rigging and serves as an excellent choice as a master point for litter bridles. Its generous connection apertures enable seamless rotation of most locking carabiners. This robust plate exhibits an impressive Minimum Breaking Strength (MBS) of 50kN in all directions and is meticulously crafted with specialized tooling to provide rounded edges that are gentle on textiles.

Key Features

- Made in USA
- 50kN MBS in all directions
- Large connection holes

Additional Information

Shipping weight | 0.58 lbs
