

5.5 mm PMI® Power Max Cord Webbing and Cordage | Cordage

PMI's 5.5 mm accessory cord is made with a Nylon sheath and Technora core. Technora is an aramid fiber that is used for some of our specialty accessory cords and Kern Mantle Ropes. Technora provides high-temperature resistance and the individual strands are eight times as strong as comparable steel strands providing high strength to weight ratio. This cord is incredibly strong, lightweight and takes less room in your pack providing confidence in your rigging systems.

Key Features

- Technora Aramid Core
- Nylon sheath

Additional Information

Shipping weight | 2.6 lbs

Length | 50 m (164 ft)

Brand | [PMI](#)

Color | Golf Green

Compliant | EN 564

MBS | 15 kN (3,372 lbf)

Weight | 21 g/m

Product Code

CC055RC050S
