

Black Diamond Icon 700 Headlamp

Whether you're on a multi-day backcountry hut trip, or conducting a SAR mission late at night, the Black Diamond Icon 700 Headlamp provides a powerful 700-lumen output, making it one of our most powerful lights available. The user interface has been updated by adding a second switch for easy lens mode selection and improved the optical efficiency, which provides brighter light with more peak intensity, plus you can easily track battery life with a six-setting, three-LED battery meter. Waterproof to 1 meter, it's ready for anything, and with red, green and blue night-vision modes, making it versatile for any mission.

Key Features

- 4 AA (included)
- Removable battery pack (longer cable included)
- Emits 700 lumens on max setting
- Red, Green and Blue night vision modes cover the spectrum of night vision needs
- Multifaceted optical lens design
