

# Climbing Technology UpYouGo - 1m Pro |

A self-locking hauling system featuring a 4:1 mechanical advantage, or 5:1 when inverted, designed for optimal performance in rescue scenarios. Specifically crafted for the lifting and release of injured operators or effective tensioning of a rope system.

---

## Key Features

- Extremely compact system functioning even when the distance from the anchor is very short.
- Equipped with a sleeve made of flexible net which prevents the rope from twisting.
- Once the load has been raised, it stops it from slipping back down, making the action quick and easy to perform.
- Possibility to lock or unlock the cam thanks to the freelock system, which can be activated by using one hand, even when wearing gloves
- The system consists of the pulleys UP ROLL and UP LOCK, with sheaves mounted on ball bearings.
- Equipped with two oval carabiners.
