

SMC Force Series D Screw Lock

The Force D Screw-lock provides tried-and-true locking, without the complications and aggravations of other methods. At 31kN (almost 7000lbs) the Force D is one of the strongest aluminum carabiners in the world. The Force D is an affordable, rock solid design, that has proven itself in the field around the globe. Whether it's used in recreational climbing, military applications, or rescue scenarios, this carabiner is designed to get the job done.

Key Features

- Generous gate clearances with deep baskets provide effortless clipping
 - Effortless and simple Screw-lock option provides added security against accidental opening
 - ISO Cold-forged from aircraft-quality aluminum
 - Classic D shape carries loads toward stronger, non-gated side
 - Low cost, high strength qualities perfect for recreational climbing, military, law enforcement, and OEM applications
 - Hooded gates offer smooth rope-bearing surfaces
-
