

SMC Jake HMS Force Twist Lock

The SMC Force series Jake HMS Carabiner makes a superb belay/rappel carabiner because of its broad (and rounded) rope bearing surface. This friction interface makes both rappelling and lowering exceptionally smooth and predictable. The Jake is equipped with a side-swing gate that provides sizable clearance and ease of use; this combined with the spacious basket make it ideal as a master-point carabiner. The Keylock design prevents snagging on ropes, webbing, and hardware. Available in Screw-lock and Twist-lock versions.

Key Features

- Twist-Lock (two stage auto locking mechanism)
 - Side-swing gate with an expansive 02" (26 mm) gate opening
 - Made in the USA
 - Designed for ease of use with belay/rappel devices
 - Keylock gate design to prevent snagging on slings and hardware
 - ISO Cold forged to create optimal rope interface
 - Grey with Blue Locking mechanism
-

Additional Information

Shipping weight | 0.2 lbs

Color | Blue/Grey

Type | Twist Lock

Material | Aluminum

Length | 4.52" (11.5 cm)

Width | 3.15" (8 cm)

Gate Opening | 1" (2.5 cm)

Major Axis MBS | 23 kN (5171 lbs)

Minor Axis MBS | 10 kN (2248 lbf)

Gate Open MBS | 7 kN (1574 lbf)
