

Harken Lokhead Winch 500 Kit (NFPA) Solutions and Kits | Kits

This winch is a portable or fixed-mounted load-lifting, personal-hoisting winch used with an unlimited length of fiber rope. The captive head allows the winch to be used safely and keeps the rope from accidentally releasing. Perfect for fixed or temporary applications and rescue. PMI offers the Harken Safety & Rescue LokHead and its accessories fully boxed in a heavy-duty storage case that allows safe transport and rapid deployment. The kit includes the LokHead winch with a reversible plate, waterproof carrying case, winch handle, tripod adapter with counter plate, control lever, a PMI General Use Vari-Rigger adjustable anchor strap, and two SMC NFPA/ANSI Lite carabiners. The strap and carabiners also meet NFPA standards.

Key Features

- NFPA 2500 Technical Use (T - Rated)
- Spare parts available from any Harken Industrial dealer.
- It can be utilized in any situation where there is a requirement to raise and lower a load.
- The simple construction requires no lubrication and can be flushed clean with fresh water.
