

SMC Force Series Oval

The Force Oval carabiner offers multiple advantages over its D shaped cousin, the Force Series D. The rounded external radius of the carabiner moves easily through hardware, and won't catch on webbing or other soft connections. The symmetrical oval design offers predictable loading, making them perfect for aid climbing and rescue, where you don't want any load shifts when weighted. The smooth internal curves of the oval offer a snag-free surface that is the perfect interface for ropes, webbing, and other soft goods.

Key Features

- Made in USA
-

Additional Information

Type | Non-locking, Screw Lock

Color | Black, Blue, Bright

Material | Aluminum

Length | 4.2" (10.7 cm)

Width | 2.2" (5.6 cm)

Weight | 0.14 lbs (2.3 oz)

Gate Opening | Non-locking: 0.59" (1.5 cm), Screw Lock: 0.47" (1.2 cm)

Major Axis MBS | 22 kN (5000 lbf)

Minor Axis MBS | 8 kN (1798 lbf)

Gate Open MBS | 6 kN (1349 lbf)
