

8.9 mm Erratic Dynamic Rope with UNICORE® PMI |

The all new ERRATIC has every feature that you need all wrapped up into one rope for any climbing situation. It is a single rope that is ultra-lightweight with a solid feel and precision control. The ERRATIC utilizes Unicore® technology, resulting in nearly zero sheath slippage, even if the sheath is damaged. This rope is also UltraDry™ treated for those ambitious alpine expeditions and for mixed rock and ice routes. It is also ideal for trad and sport climbing, especially when sending difficult routes where weight, speed and performance are your tools for success.

Additional Information
