

9.1 mm BEAL Joker - Golden Dry Sport | Sport Rope

The JOKER 9.1mm rope is a single, double and twin rope that can be adapted to many different climbing situations. It offers the right balance between lightness, fluidity and safety to please experienced climbers and will also suit, thanks to its versatility, more traditional climbers looking for a rope that can be used for ridge running, classic, mixed or snow climbing. The JOKER rope, already famous for being the first rope to meet the 3 standards for dynamic ropes, is now more versatile for climbs in the best conditions. The strong point of this new JOKER rope is the integration of the UNICORE innovation that makes the core and sheath of this rope integral to provide greater safety and durability over time.

Golden Dry core treatment allows efficient protection against water that guarantees to pass the UIAA water repellent standard.

Key Features
