

PMI® Dura-Shield Pro Litter Bridle Patient Care | Rigid Litters and Accessories

The PMI® Dura-Shield Pro Litter Bridle is a strong, versatile system for technical rescues. Built with a combination of 11 mm PMI® Dura-Shield Tech and 8 mm PMI® Dura-Shield Explorer Rope, it delivers exceptional abrasion resistance while keeping the system compact and lightweight. Independent leg adjustment provides precise handling, and a storage bag keeps everything organized.

The Pro bridle comes in a 2-leg version, attached to an SMC Origin 5 Rigging Plate, or a 4-leg version with a 10,000 lb. forged O-ring. Designed to integrate seamlessly with the PMI®/SMC Deluxe or JR Haul System, it can be used as a complete litter scoop solution.

Ideal for fire rescue, technical rescue, confined space, and cave operations, the PMI® Dura-Shield Pro Litter Bridle is engineered to perform when conditions are at their toughest.

Construction:

- 11 mm PMI® Dura-Shield Tech legs sewn to connector
- 8 mm PMI® Dura-Shield Explorer rope
- Unique design for abrasion resistance and reduced bulk

Configurations:

- 2-leg version with SMC Origin 5 Rigging Plate
- 4-leg version with 10,000 lb. forged O-ring

- Compatible with PMI®/SMC Deluxe or JR Haul System for scoop operations

Key Features

- Legs are independently adjustable; Comes with a storage bag; 2-leg version excels as a vertical bridle
- An adjustable litter bridle made with 11 mm PMI® Dura-Shield Tech and 8 mm PMI® Dura-Shield Explorer. The 11m legs are sewn onto the connector. This unique construction offers a compact and lightweight bridle with superior sheath abrasion
- Comes in a standard 4-leg version with a 10,000 lb. forged O-ring or a 2-leg version attached to an SMC Origin 5 Rigging Plate. The PMI® SMC Advance Tech Haul System can be easily added to make this a litter scoop system.
