

PMI® Creel Bailout System Solutions and Kits | Kits

The **PMI® Creel Bailout System** is a complete personal escape solution for firefighters and rescue professionals. Designed for rapid deployment in life-threatening conditions, it combines strength, reliability, and compact portability.

Each system includes:

- **PMI® Clinch Anchor** - High-strength aluminum construction with a steel tip, designed for quick, secure anchoring to structural elements like window frames or ledges.
- **PMI® 7.5 mm Element Escape Line** - Technora® core and sheath rated to 930°F, providing exceptional heat and abrasion resistance.
- **PMI® Cast Descent Device** - Simple, no-moving-parts design with auto-stop functionality for smooth and controlled descent.
- **ProClimb® NFPA 2500 Carabiner** - Dual-action auto-locking gate for dependable connection between components.
- **Bailout Bag** - Heavy-duty Cordura® pouch with Velcro® closure, fits in turnout gear for quick access.

Every system meets **NFPA 2500 (1983) 2022 Edition** standards and is field-tested for performance in the toughest rescue conditions.

Key Features

- Complete NFPA-compliant bailout kit
- Auto-stop descent control device
- Built for firefighter reliability and readiness
- Compact and turnout-ready design
- Clinch anchor supports multiple anchoring methods
- Element Escape Line resists 930°F
- Durable Cordura® bailout bag
