

## PMI® Extreme Mantle Rope Guard - 24" Pro | Pro Rope

The PMI® Extreme Mantle Rope Guard is built for the harshest edge protection demands. Its multi-layer construction combines ballistic nylon, Kevlar®, low-density polyethylene (LDPE), and cotton canvas to protect your rope against sharp edges, abrasion, and extreme friction. At 24" long and 8.40 oz. (238 g), the Extreme Mantle provides robust protection where standard rope guards fall short – industrial applications, confined space rescue, and rope access at difficult anchor points.

---

### Key Features

- Multi-layer construction: ballistic nylon, Kevlar®, LDPE, and cotton canvas
- 24" length for substantial edge coverage
- Designed for extreme edge and abrasion conditions
- Compatible with rescue, rope access, and industrial applications
