

## 10 mm PMI® Water Rescue Rope

Designed at the request of our customers, this rope is intended for use as a bagged throw rope for boat or shore based water rescue. The continuous stranded polypropylene core provides flotation to the wear - resistant braided nylon sheath. This rope has a higher breaking strength than economy polypropylene water rescue rope, and is much easier to grip.

---

### Key Features

- Continuous polypropylene core
- Lightweight
- Nylon sheath

---

### Additional Information
