

CASCADE ADVANCE SERIES TITANIA MODEL 200 CONFINED SPACE

The new titanium narrow version of the ultimate small team response litter. Designed specifically for use in confined space situations, this litter maintains all the great usable features of the traditional Titania Advance series litters. Crafted from hand laminated composites, it provides excellent subject protection and easy maneuverability for the litter attendants. A great light weight choice for urban, industrial, cave and/or mountain rescues when space is limited.

Key Features:

All Cascade Advance litters come with removable pad and aluminum FastPax Rails • Four patient restraint straps for quick, secure subject immobilization • Abrasion resistant shell • Titanium handrails/construction • Ample brackets • Bright orange exterior • Made in the USA

Height: 5.00" (12.7 cm)
