

The Harken® Riggers Winch provides the user with a lightweight, CE certified, portable winch mounted to a robust adaptor plate. The Harken® Riggers Winch weighs 15.40 lbs (7.000 kg) with a 1/2 ton working load limit, the 2 speed winch magnifies the operator pulling power by up to 40 times. The multiple mounting options provide versatility when working in difficult or remote environments.

Key Features:

Sculpted mounting plate removes excess weight and provides multiple attachment points without compromising strength • The pigtail line lead ensures correct alignment and loading of the winch for maximum efficiency • Harken’s aluminum 40.2 winch features 17-4 PH stainless steel load carrying gears and pins for strength and durability • The unique drum design maximizes grip on the rope • Designed for ropes up to 1/2” diameter • CE certified under EN 13157 • Maximum working load of 4.9 kN and a breaking load of 24.5 kN

*Width: 11.40" (29.0 cm) » Length: 11.40" (29.0 cm) »
Weight: 15.40 lbs (7.000 kg) » MBS: 24.5 kN (5508 lbf)*

CERTIFIED CE EN 13157

Q: What is the maximum line operating length?

A: There is no maximum rope length for use with the Riggers Winch. The pigtail allows the rope to be installed without feeding the end of the rope through.

Q: Is the Riggers Winch suitable for human suspension?

A: In accordance with Directive 2009/104/EC persons may be lifted only by means of work equipment and accessories provided for that purpose. Without prejudice to Article 5 of Directive 89/391/EC, exceptionally, work equipment which is not specifically designed for the purpose of lifting persons may be used for that purpose, provided appropriate action has been taken to ensure safety in accordance with national legislation and/or practice providing for appropriate supervision.

Q: Is the kit supplied with the attachment fittings?

A: No. Attachments and fittings are dependent on operational use. The Harken technical team can provide advice on the best attachment solution.

Q: Can I service my own Riggers Winch?

A: Yes. However, service and winch maintenance must be in accordance with Harken service instructions and using Harken-approved replacement parts.

Q: What drill do you recommend for use with the Harken® Riggers Winch

A: Milwaukee M18 or M28 right angle drill, the Harken® Riggers Winch 500 will lift a rescue load roughly 300 feet per battery. The drill adaptor bit will need to be purchased separately and is available through PMI.
