

PMI® Crane-Tek Rescue Solution is designed to meet the requirements of workers in high places (ie cranes, etc) who are not wearing a harness but may need to evacuate themselves using an emergency harness and rope for controlled descent in the event of an emergency.

The D4 Descender forms the foundation of this kit, allowing for immediate rope descent. The D4 Descender features a double-action safety mechanism that stops the user if they let go of the handle or if they pull the handle too hard in a panic. When the panic lock is engaged, simply turn the handle until it gets back into the lowering position and continue your descent.

#### Solution Features:

- 11 mm PMI® Extreme Pro Rope (25m, 66m or 100m)
- 1 – 1m PMI® Wire Rope Sling
