

The Quadra can change instantly from one mode to another while under load. A special braking mechanism increases the frictional force for lowering heavy loads. This device will arrest a 2 person fall factor by 1/3 when in life lining mode with no rope damage. It will also retain full function after a fall. Recommended for use with PMI® Access Pro rope.

**Key Features:**

Stainless steel • Patented secondary braking system • Included in the FallTek™ Rescue Solution • Designed for ropes from 10.5 mm to 11 mm

*Weight:* 1.50 lbs (680 g)

*Sizing Info:* 10.5 mm - 11 mm rope

**HD26175**

**CERTIFIED** prEN 12841-A,B,C

A large, empty rectangular box with a thin black border, intended for handwritten notes.
