

Based on Russ Anderson's original design, these pulleys are essential equipment for the serious rigger. Rotating side plates allow attachment of the pulley anywhere on the rope and the 3" and 4" models will accept multiple carabiners. Axle nuts are marked with a blue witness line to indicate if the axle nut has been tampered with or turned.

Key Features:

- UL Certified to NFPA1983 "G" General Use.
- Matched double-bend side plates help eliminate compression under load.
- Solid side plates help to keep dirt and debris out of the rope track.
- The axle-nuts are double locked to the steel axle and marked with a witness line to help detect any loosening.
- Made in the USA.

SMC/RA 3" Pulley	SM151000
Manufacturer	SMC
Material	Stainless Steel
Axle	Oilite
Sheave Material	Aluminum
Sheave	3.00"
Tread	2.34"
Max Rope Size	16 mm
MBS	51 kN (11465 lbf)

Height	3.8 cm (1.50")
Length	16.8 cm (6.60")
Width	9.1 cm (3.60")
Weight	454 g (1.00 lbs)

Certified by Underwriter's Laboratories to exceed the NFPA 1983 "G" - General Use requirement of 40kN.
